R4S_RESEARCH_4_SOLUTION

THE USE OF AI IN THE UNIVERSITY AND
MEDICAL PANORAMA

PURE RESEARCH AND APPLIED RESEARCH

PURE RESEARCH

Current stage.

Basic research, also known as pure or fundamental research, has as its primary objective the advancement of knowledge and the theoretical understanding of the relationships between the different variables at play in a given process.

APPLIED RESEARCH

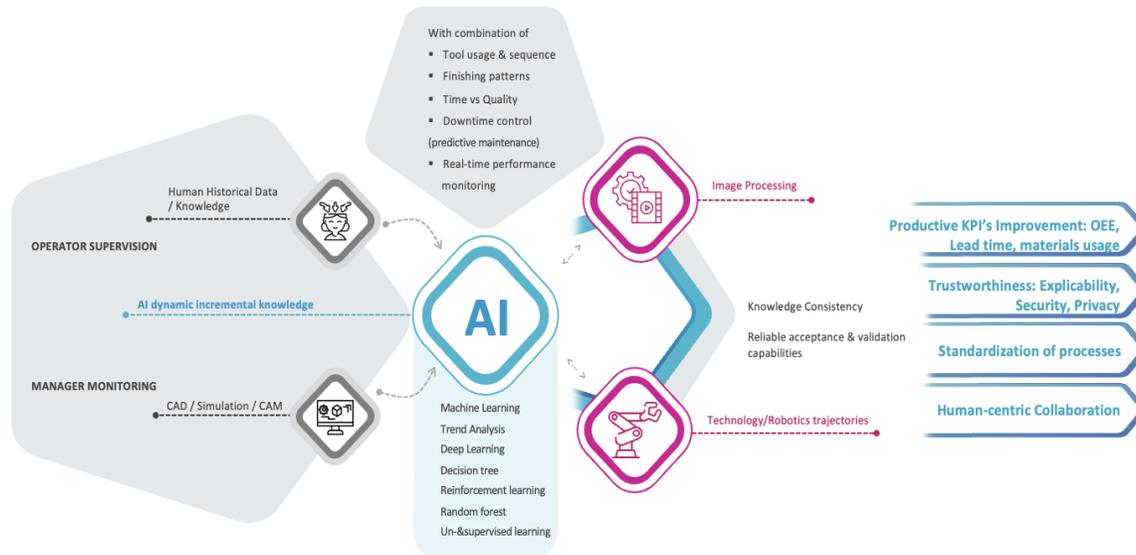

Through the scientific areas of the university, apply research to the solution of health problems through the use of Artificial Intelligence.

It is closely related to basic research.

Epistemologically speaking, it is about applying research to knowledge and practice verità e l'azione, la spiegazione e la realtà della situazione.

HOW ...

a spin off for robotics AI
