

# GenAI in Medical Trainings

Bilyana Nikolaeva  
[info@holoma.info](mailto:info@holoma.info)

# Dynamic Hip Screw practical training for orthopaedic surgeons

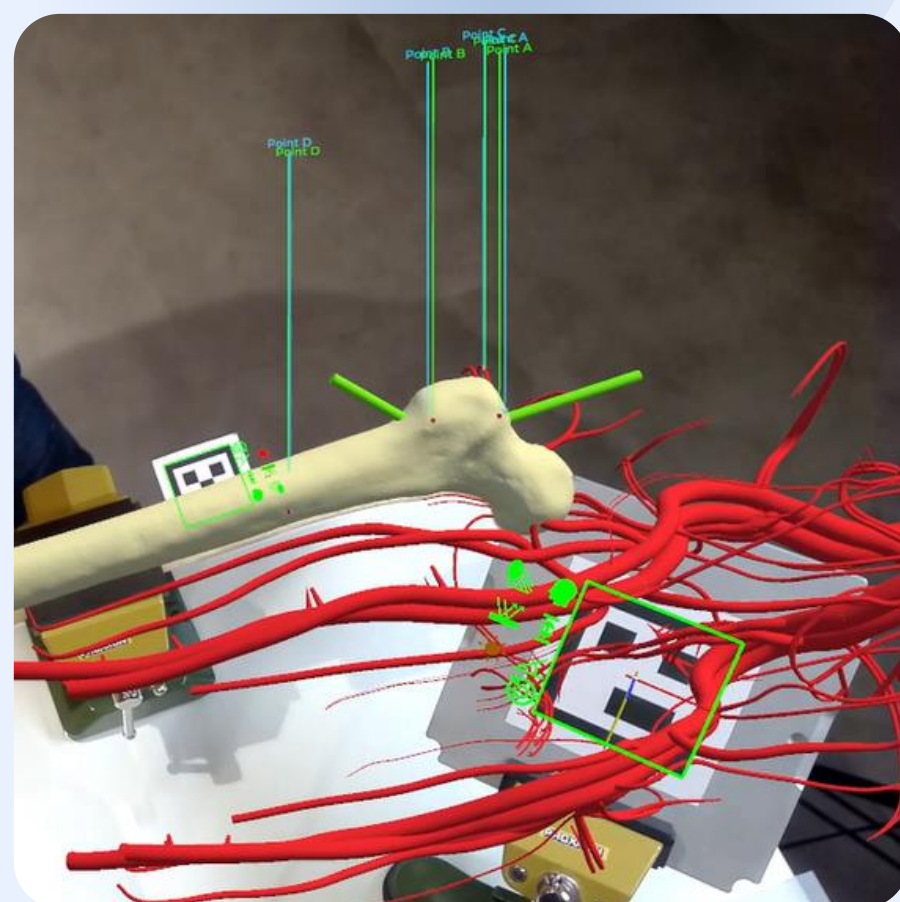

VS

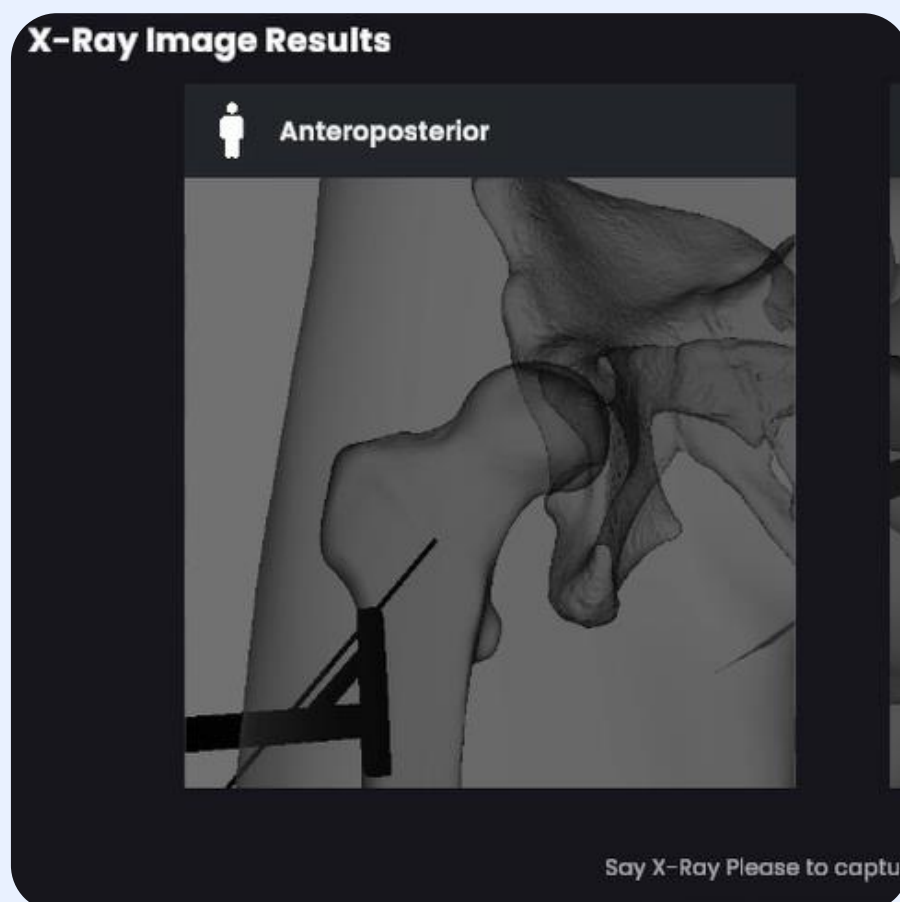

# HoloMA added value

Enhancing reality by superimposing the precise 3D models of human anatomy over the plastic bone

Generating X-Ray image showing the needle penetration in the bone in near-real time with voice command

Recording the results of each trainee's work in MS Azure. Visualizing them in a 3D model.

*HoloMA is device agnostic and uses affordable hardware*

# THANK YOU
